**DETAILED ACTION**

***Election/Restrictions***

The Examiner has reviewed the Applicant's arguments in support of traversal of the restriction requirement mailed on 06-15-2005. The Examiner agrees with the Applicant's comments concerning Group I and II. And as such, the Examiner will examine claims 1-27 directed to Group I and II. However, claims 28-42 are believed to be properly restricted.

***Claim Rejections - 35 USC § 102***

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Claims 1, 5 and 6 are rejected under 35 U.S.C. 102(b) as being anticipated by Hazenbroek et al (US Patent 5,833,527).

Hazenbroek et al teach a poultry breast filleting apparatus which is structurally similar to the Applicant's claimed apparatus for separating leg quarters from the back portion of a poultry carcass back half. An elongated guide assembly 147 and 148 include an entry end and an exit end mounted adjacent a conveyor 33 and extending along a path of conveyance. As seen in Figure 3, the guide assembly further includes two proximately spaced guide rods.

Claims 7-10 are rejected under 35 U.S.C. 102(b) as being anticipated by Barendregt et al (US Patent 6,322,438).

Barendregt et al teach a poultry leg and thigh processor structurally similar to the Applicant's claimed apparatus. The device includes a disc mounted below a conveyor rail conveying poultry, the disc including teeth about its peripheral extending radially outward. A v shaped cross section mounted and aligned along the path of conveyance. The plow is a circular curve. The plow is adjustably mounted to a frame with a horizontally adjustable mounting member. The plow has at least one pointed leading edge.

***Allowable Subject Matter***

Claims 2-4 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 11-27 are allowed.
